Profile

Aspiring Full Stack Developer with proficiency in front-end and back-end development. Eager to contribute to build scalable applications with a focus on User Experience.

Education

Bachelor of Technology (Computer Science and Engineering), <i>Integral University</i>	2020 – 2024
CGPA 8.2	Lucknow
Intermediate, <i>Sainik Inter College</i>	2020
	Bahraich

Professional Experience

Software Engineering Job Simulation, <i>Forage</i>	09/2023 – 10/2023
Completed a job simulation as a Goldman Sachs governance analyst responsible for assessing IT security and suggesting improvements. Identified that the company was using an outdated password hashing algorithm by cracking passwords using Hashcat. Wrote a memo for my supervisor summarizing a range of proposed uplifts to increase the company's level of password protection including extending minimum password length and using a dedicated hashing algorithm.	Remote
ReactJs Development Intern, <i>Manyversity</i>	07/2023 – 08/2023
Engaged in React.js internship where I developed dynamic web applications, collaborated on UI components, optimized performance and gained proficiency in JavaScript, ES6+, JSX syntax, Git version control and agile development. Major Project - Movie Dashboard App	Lucknow

Skills

HTML | CSS | JavaScript | Bootstrap | Tailwind CSS React.js | Python | GitHub | Express.js | NodeJS

Projects

Weather Application 📄	09/2023 – 10/2023
Developed a weather application that provides real-time weather information to users based on their location input. The application fetches weather data from a third-party API and displays it in a user-friendly interface. Tech Stack :- JavaScript, HTML, CSS, D3.js, API, MapTiler	
Movie Dashboard App	09/2023 – 10/2023
I designed and developed a sleek Movie Dashboard App using ReactJs, showcasing my skills in frontend Development and UI design. Tech Stack :- JavaScript, ReactJS, API.
