### Profile

Aspiring Full Stack Developer with proficiency in front-end and back-end development. Eager to contribute to build scalable applications with a focus on User Experience.

### Education

**Bachelor of Technology (Computer Science and Engineering), Integral University** 2020 – 2024  
CGPA 8.2 Lucknow

**Intermediate, Sainik Inter College** 2020  
Bahraich

### Professional Experience

**Software Engineering Job Simulation, Forage** 09/2023 – 10/2023  
Remote  
Completed a job simulation as a Goldman Sachs governance analyst responsible for assessing IT security and suggesting improvements.  
Identified that the company was using an outdated password hashing algorithm by cracking passwords using Hashcat.  
Wrote a memo for my supervisor summarizing a range of proposed uplifts to increase the company's level of password protection including extending minimum password length and using a dedicated hashing algorithm.

**ReactJs Development Intern, Manyversity** 07/2023 – 08/2023  
Lucknow  
Engaged in React.js internship where I developed dynamic web applications, collaborated on UI components, optimized performance and gained proficiency in JavaScript, ES6+, JSX syntax, Git version control and agile development.  
Major Project - Movie Dashboard App

**PHP junior developer, Travbizz It Solution** 05/2024 – present  
Noida  
I've created an e-commerce website using javascript, php and mySQL as database. It was fully responsive as well as dynamic. Also I've created an admin dashboard where client can manually update the contents of webpage.

### Skills

HTML | CSS | JavaScript | Bootstrap | Tailwind CSS React.js | Python | GitHub | Express.js | NodeJS | PHP

### Projects

**Weather Application** 📄 09/2023 – 10/2023  
Developed a weather application that provides real-time weather information to users based on their location input. The application fetches weather data from a third-party API and displays it in a user-friendly interface.  
Tech Stack :- JavaScript, HTML, CSS, D3.js, API, MapTiler

### **Movie Dashboard App**

09/2023 – 10/2023

I designed and developed a sleek Movie Dashboard App using ReactJs, showcasing my skills in frontend Development and UI design.

Tech Stack :- JavaScript, ReactJS, API.

### **Certificates**

---

#### **Google Cloud Study Jam**

Worked with Generative AI and Google Cloud Platform(GCP) under this certification.
